CyberTEA 2.0: Cybersecurity Trends and Emerging Applications

5-Day Online Workshop

[1st-5th November 2024]

About the Workshop

In today's digitally connected world, cybersecurity has become a paramount concern. As technology evolves, so do the threats that exploit it. To address this ever-changing landscape, the **Second Edition** of the Workshop on “Cybersecurity Trends and Emerging Applications” aims to provide participants with insights into the latest trends, challenges, and emerging applications in the field of cybersecurity. This workshop will foster a collaborative environment for participants to learn, discuss, and explore innovative solutions to safeguard digital assets.

Objectives

- Explore recent trends and developments in cybersecurity.
- Discuss the challenges posed by emerging technologies and their impact on cybersecurity.
- Examine the role of AI/ML, and data analytics in enhancing cybersecurity.
- Showcase real-world case studies.
- Foster collaboration and networking among participants in the field of cybersecurity.
- Understand research gaps between academia and industry.
- Focus on Hands-on sessions.
